CLIENT REVIEW

Triona & Robert Huggard

"We used John to get our mortgage to build our own home. From the very outset at our first meeting John made everything very easy for us as the process can appear very daunting when you are new to it all. He helped us through each stage of the process including recommending an engineer and solicitor. John also did the mortgage protection cover and reviewed our family life and serious illness cover. We found John to be very accessible and always responded to us really quickly. He explained everything to us in simple terms and is very practical. We could not recommend him highly enough. Thanks again in helping us secure our new home."

We first met John in January 2019 when we decided after 8 years of renting it was time to get on the property ladder. John came recommended from a colleague at work so we met him to get advice on where to start and what we would need to be mortgage ready. From the first day we met him he was like a friend, no question was silly and his knowledge was unbelievable. We saved every penny for the next few months and then our dream home came up for sale at the end of June. We rang John straight away and the next evening we were sitting down with him filling in forms. From start to finish he was there, I work shifts so day or night he was always at the other end of the phone advising us and being the go between for us and the bank.

By the second week in July we were mortgage approved. The knowledge John has is second to none, as first time buyers we didn't know where to start and once we met John he took all the worries away. He kept in constant contact via phone and email and put us at so much ease. He also sorted our life assurance, home insurance and mortgage protection. I could not recommend him enough especially for working couples who don't have the time to be going to meetings etc with banks, John works around your schedule and with two young kids he was a lifesaver to us. I've since sent friends to him who all have successfully purchased homes. He took all the stress away for us and if we are ever to purchase again he will be our first phone call.

When applying for our mortgage in 2020 a friend recommended using Castle Capital to assist in the process, and this was without a doubt the best decision we made. As first-time buyers we were in the dark on certain elements of the mortgage application process but from start to finish John provided us with clear understanding, knowledge, and advice on every aspect of the application and process. The service, guidance and support we received from John was second to none, as he went above and beyond to make the application process as smooth as possible. No question was too big or small, and we had many questions! John took us through every element step by step in a very patient and supportive manner. He was always at the end of the phone or an email away if we needed clarification or reassurance.

John has a great relationship with the banks and fosters a great relationship with the client which makes the communication process very straightforward and is testament to his dedication and professionalism. Additionally, John and his team assisted us in getting quotes and choosing the Mortgage Protection and House Insurance ensuring we had the correct protection.

We couldn't recommend John and Castle Capital enough and thank him massively for assisting us in buying our first home!
